AN EDUTAINMENT EVENT

Presented by

COSMOTOTS-iqd[®]
INTERNATIONAL

IQ DEVELOPMENT & EDUCATIONAL FOUNDATION

In collaboration with

REAPfield[®]

WHAT IS EDUTAINMENT ?

A really good student learns because he wants to, not because he has to. A preschooler or a primary school kid wants to learn not because he is driven to do so but because he can be enjoyably involved in his learning process. He is entertained, so to speak, as he is being educated. When the two concepts are combined, we get a third one, to wit: edutainment.

ABOUT THE 7TH NOVEMBER EDUTAINMENT EVENT

The Management of COSMOTOTS-iqd International proposes to showcase what can be achieved when the process of learning is one of pleasure, not pressure. The event is really a fun time for the performing kids. Hopefully, for the audience as well.

We cover many educational areas in COSMOTOTS-iqd International but, for practical considerations, we can only showcase one important development, to wit: oratory. **ELUCIDATION:** In our pedagogical paradigm, we place a premium on speech-ability for that can eventually spell success or failure in the workplace. Indeed, in today's globalised world, speech-ability is a required skill if a student is to be successful in gaining admission into a branded university.

We have also programmed a time slot for **WORKSHOPS** so that parents and members of the public can engage with us if they feel so inclined.

How was your lesson today? We were doing a poem called "The Holding of the Bridge". It's about a hero called Horatius who fought the soldiers of a bad guy called Lars Porsena. It was so exciting!

I also enjoyed my lesson today. Very much. We were doing a nonsensical poem by Edward Lear. The way the Owl sang to the Pussy-cat was so funny!

I am going home to do some research on the war between Lars Porsena and the Romans. I am looking forward to our next lesson!

INVITATION

You are cordially invited to come and watch us perform.
We will do our best and we hope that you will judge us kindly.

À bientôt, j'espère.
